Work Experience

IntentTech (Remote) - Fullstack Engineer | July 2024 - Present

Company Location: Dewsbury, UK

- Integrated complex form handling and dynamic UI for abstract submissions and reviews.
- Collaborated with designers to ensure pixel-perfect UI implementation.
- Actively contribute to the development of two key projects
 - A multi-tenant Conference-as-a-Service platform enabling academic conferences to manage abstract submissions, reviews, manuscript workflows, presentation scheduling, and DOI integration, with each conference hosted on a dedicated subdomain.
 - Grant Management Platform : A comprehensive system for onboarding, triage assessment, and detailed assessments for clients requiring specialized support, ensuring scalability, security, and ease of use through NestJS , Prisma , Docker , and Azure Pipelines .
- Collaborate closely with the team lead to refine features based on client requirements and stakeholder feedback, ensuring alignment with business goals.
- Perform database modeling alongside the team lead and other team members to optimize data storage, retrieval processes, and system performance.
- Write automation tests using Cypress to validate system integrity, minimize regressions, and ensure seamless updates during ongoing development.
- Supervise and mentor interns, providing guidance on best practices, code quality, and task execution.
- Contribute to both backend and frontend tasks, ensuring cohesive integration and functionality across the platforms.
- Continuously integrate new technologies and tools to enhance performance, security, and user experience across both projects.

GTI Rides (Remote/Contract) - Frontend Engineer || Nov 2023 - August 2024

Company Location: Lagos, Nigeria

- Built responsive and user-centric web interfaces for a car rental management platform using React , HTML , CSS , and JavaScript .
- Collaborated closely with clients to understand their requirements and deliver custom solutions that met their business goals.
- Implemented clean, maintainable code and followed best practices such as code documentation , version control , and testing .
- Managed project timelines effectively, communicated progress to stakeholders, and delivered projects on schedule.

Stevic Payment (Remote) - Fullstack Engineer | August 2022 - July 2024

Company Location: Lagos, Nigeria

- Developed a monitoring interface for a financial application running on the TIANYU P30 Android POS device .

SKILLS

Programming
